Introduction

M SQUARE M CUBE designs, manufactures, services, maintains and refurbishes luxury swimming pools and Jacuzzis. We have the qualifications and experience to create and maintain any type of Pool, Landscape or Spa, regardless of style, plant technology or size.

Founder of M SQUARE M CUBE Pools & Landscaping **Mr. Mukesh Muraleedharan** is proud to offer a wide range of innovative Swimming pools, Jacuzzi, Sauna & Steam, & Landscape. He is recognized for his unmatched service, style and sophistication.

The core activities of the company are directed towards improvement of the environment surrounding us by providing not only aesthetically pleasing but also cost-effective solutions for our valuable Clients. We are specialized in Commercial and Residential Landscape and Swimming pool designs and construction. We consider that excellence in Quality, Safety and Environment compliance are vital to our success and growth. We as a group continuously strive to improve our performance in these areas. We are committed to safeguarding our employees and the environment. We aim with passion, work and competence to one main goal that represents our mission: to offer qualified support to all our customers, large and small, offering our technical support in all cases, whether it is building new swimming pools or maintaining existing systems.

Concept Pools can take control and coordinate the entire project, from the original design concept to final project completion, obtaining engineering drawings, approvals from relevant authorities, and stress-free when you sit down.

Swimming Pool Maintenance AMC

An Annual Maintenance Contract (AMC) with M Square M cube is the simplest and most effective way to ensure your pool remains a sparkling, pristine oasis year-round. Our AMC plans are designed to take the worry and guesswork out of pool ownership, offering you comprehensive, regularly scheduled care delivered by our team of certified, experienced technicians. This contract goes beyond basic cleaning; it's a proactive maintenance program that includes routine inspection of vital equipment like pumps, filters, and heaters, along with precise chemical balancing to maintain water clarity and hygiene.

Key Components and Services

- Regular Cleaning and Debris Removal
- Water Quality Management
- Equipment Inspection and Maintenance
- Structural and Safety Checks
